CONCLUSION	4

ACKNOWLEDGEMENTS

The Training Report was undertaken since October to December 2013, and provides information on training sessions, presentations and cross visits with the number of participants divided into components and gender of Irrigation Water Management and Grants for the period of three months.

I take this opportunity on behalf of USAID Family Farming Program to express our thanks and gratitude to USAID for financial support and assistance.

Special appreciation and acknowledgement goes USAID FFP COP Dr. James Campbell and local staff who made all efforts in providing technical consultation, relevant information and assistance to implement the goal and objectives of the program through the training sessions.

SUMMARY

TRAINING OBJECTIVES

Since 2011 USAID FFP launched its activities in the target area of Khatlon Oblast. The main activity of the program were training sessions through which the beneficiaries can obtain knowledge and develop their skills, raise awareness on Irrigation Water Management, Agriculture Enhancement and Livestock Development, Nutrition and Home Economics and Gender Equity. Each component has their objectives that are implemented through the training sessions.

METHODS OF TRAINING

The training methods that are used in FFP training are mostly demonstrations in the fields, presentation, site visits and workshops. The training sessions include formal presentations, informal discussions, and demonstrations and provide opportunities to try out new skills and knowledge in the field that could be adaptable in certain area.

TRAINING TOPIC

To achieve the training objectives, during the first quarter FFP provided training on the following topics:

- Organizational Leadership Skills Developments;
- Financial Management Activities in WUA;
- Training on Conflict Management;
- Maintenance and Operation Plan of Irrigation System;
- Training on On-Farm Water Management Training for WUAs' members;
- Cross-Site Visit;
- TOT for Staff Development and NGOs;
- Training Sessions Community Development Method;
- Main Principles and Approaches of WUA Establishment,
- WUA Establishment, Resolving Water Supply Issue;
- WUA Structure, Functions and Responsibilities of General Assembly Meeting;
- WUA Establishment by Hydrology Method;
- Bylaw Committee Representatives' Election;
- Legal Acts on WUA Establishment, Law on WUA of RT;
- Functions and Responsibilities of WUA, Functions and Responsibilities of Core Group;
- Role of Water User Groups in WUA;
- Bylaw Norms, WUA Bylaw Committee Role & Functions;
- Grant Management for WUAs;

Overall, FFP IWM and Grants team provided 198 training sessions during the reporting period. A total of 1,153 individuals attended training sessions of these 1,041 participants were men and 112 were women.

In response to the RIG audits recommendations to minimize the multiple counting of training participants in order to count unique individuals, the training forms were revised and finalized during the reporting period. The Training Coordinator attended randomly selected training sessions in the field for evaluation purposes. During the field visits the IWM WUA Organizers and the relevant Grants component team were trained on how to fill in the revised forms in order to eliminate the double counting of training participants.

CONCLUSION

Farmers of Khatlon region are very interested in training sessions related to WUA institutional development and grants as their understanding of the WUA concept has increased over time. They became more active and show enthusiasm in improving irrigation water management through Water Users Associations.

NOTE

Since many of the participantes were in sequential trainings, they are not recounted in the following event, which results in some trainings appearing to have zero participants.

Date	Major Train Cat.	Training Topic	District	Village	Target Groups	Male	Fem	Total
